SUPER COMPACT AND INCREDIBLY POWERFUL

Health benefits

BSG MOBIZONE cleans the air & surfaces in your personal space, that can help with:

Headaches & Fatigue

Sinus Congestion

Nausea and Sickness

Asthma or Allergies

Why BSG MOBIZONE?

Weighing in at a fraction of a kilo/pound, **BSG MOBIZONE** is a true plug-and-play solution, built to travel with you as a personal appliance. Each system channels air through an inner chamber, where it is bathed by ultraviolet light.

Clean, safe, pure air is returned to your personal living space. Additionally, each unit produces photoplasma, which disinfects the surfaces of the crevices and corners that other methods of cleaning simply cannot reach.

BSG Virus Shield Protects:

Ubers, Lyfts, Cars, Taxis, Rentals, Commercial vehicles, office desks and gym bags all over the world.

Benefits of BSG MOBIZONE:

- Quiet operation
- Completely automated and chemical-free
- Does not use consumables, such as batteries, filters, or fragrance dispensers
- Maintenance free
- Comes standard with a USB and Caradapter, a 6-ft (1.8 meter) power cord and an optional standard wall plug adapter
- Anti-slip rubber feet for flexible install options
