

PRODUCT SPECIFICATION

BSG ICEZONE

Product Family: ICEZONE
CHILL & ICE

Model: X-10, X-20, X-30

Description: Chiller and Ice Machine surface disinfection

System information

Input voltage:	100-240 V AC
Input frequency:	50/60 Hz
Power supply output voltage:	12 V DC
Amperage:	0.800 A
Electric consumption:	9.6 W
Power supply capacity:	2.08 A

Sizing information

- Specified by daily ice production
- IZ-X-10:** Ice and water dispensers
- IZ-X-20:** Up to 181.4kg (400 lbs)
- IZ-X-30:** 181.4kg (>400 lbs)
- High yeast environments may require a larger model

Features

- UL listed
- NSF certified
- HACCP certified
- LED status indicators

Mounting options

Top, side, back, internal, and wall-mount configurations available

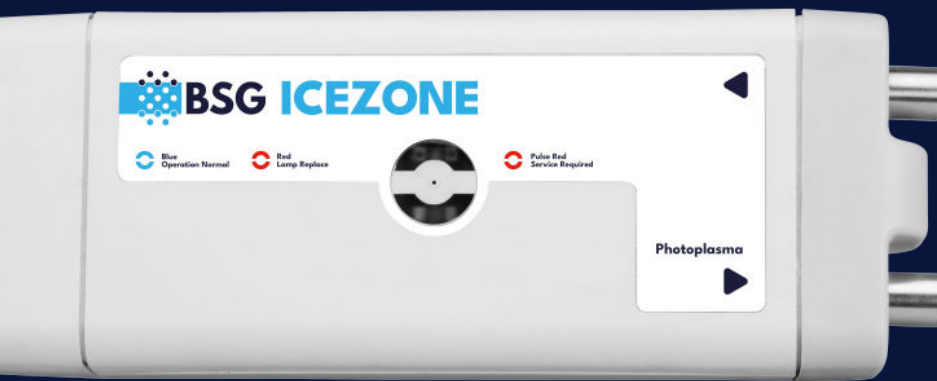

Applications

- Ice machines
- Ice bins
- Beverage dispensers
- Chillers and refrigeration

Warranty

One year parts and labour on entire unit.

Chiller and Ice machine surface disinfection

- Prevent slime and mould build-up
- Keep ice machines, ice bins, and beverage dispensers clean
- Reduce equipment cleanings and associated costs
- Reduce bacteria, yeast, and other microorganisms
- Decrease technical malfunctions and equipment downtime
- Completely automated and chemical-free
- Maintenance free – requires a simple annual UV lamp replacement
